No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Chi., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital forces in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

MONDAY JULY 23, 1883

A BREEDERS' ASSOCIATION

The State of Nevada having become a large factor in the business of stock raising, and being the only State or Territory of any magnitude in the stock business that has no stock breeders' association, the Battle Mountain *Messenger* calls the attention of breeders to the advisability of establishing such an association for the purpose of encouraging and fostering the raising of first-class animals. The *Messenger* thinks such an association would have a tendency to encourage the stock interests in this State, to recognize the right of all interested to the use and benefits of the ranges now claimed by stock men; also an acknowledged system of marks, thereby preventing confusion and similarity of the marks and brands. It would also bring the stock men together at stated intervals for the purpose of interchange of ideas and experience connected with the stock raising interests of the State. And intending purchasers could obtain from the association reliable information as to quantity and quality of any kind of animals, thereby saving much unnecessary expense in travelling over different portions of the State in search of what they might need.

Nevada beef commands better prices in California and eastern markets than that from any other section, and now that cattle men are getting stock graded up to a point where the exchange of one breeder's ideas with those of his neighbor's would be of great benefit to all, and any organization tending to give them more knowledge of the secrets of successful beef raising, is good.

EDITORIAL NOTES

Blaine devotes considerable time every day to his book, and it is making considerable progress.

The Eureka *Sentinel* quotes approvingly from the Stockton *Herald* something about the friends of Garfield being distressed over the avowal of Dorsey that he bargained away his honor during the last campaign. Quite the contrary is true. Garfield's fame does not rest on partisan prejudice or loose assertions of either friends or enemies.

The cattle of South America have increased so rapidly in the past few years that they have declined in price about 50 per cent. Good fat bullocks are selling as low as \$6 and \$8 per head. It is estimated that in two years from now the number of cattle in the Argentine Confederation will number 28,000,000, against 18,000,000 in 1877, 5,000,000 of which are in the State of Buenos Ayres. The Confederation also claim 60,000,000 sheep, 10,000,000 goats, 4,000,000 horses and 18,000 ostriches.

The many labor organizations throughout the country, which are frequently engaged in the reckless and expensive habit of destroying property and maltreating those who cannot be induced to join the strikers, are taught a valuable lesson by the recent action of the Brotherhood of Telegraphers. There has been no boisterous demonstrations, and, as far as reported, not a dollar's worth of property has been destroyed. The means employed to correct their wrongs have been moderate and gentlemanly, and have thereby won the esteem and good will of all good citizens.

TELEGRAPHIC BREVITIES

At Allentown, Pennsylvania, all the Western Union line men in the district except the foreman, have quit.

There was a riot at the Stanislaus Polish Catholic church in Buffalo, yesterday. Two officers were struck and 10 arrests made.

The strikers at Indianapolis, Memphis and other places are confident of success and are receiving substantial aid from other organizations.

During a thunder shower in New York yesterday, 12 inmates of the Bellevue Hospital, who were seated on a balcony, were prostrated by lightning and all more or less injured.

EASTERN DISPATCHES.

WIRELESS DISPATCHES TO THE GAZETTE.

Effects of the Strike.

CHICAGO, July 22.

The officers of the Western Union say everything is in good shape; they have had to-day and to-night more men than they could use and the dispatches are going promptly. McCullough of the Baltimore and Ohio, says he has received advices from headquarters to the effect that all negotiations between the company and the operators have been broken off, as the company would not recognize the Brotherhood. The striking operators held a meeting this afternoon, which was largely attended. They now claim to have 1,000 members in this city. The meeting was devoted to the reading of encouraging letters and telegrams from other cities. Advice from Harrisburg, Pennsylvania, said it was not true, as had been reported, that the strikers there had returned to work, and they profess the utmost confidence as to the result.

The officials of the Telephone Company say that some unknown persons have been cutting their wires in the test boxes and cupolas at five different places in the city. An aggregate of about 50 wires were severed, and large numbers of tags changed, so that repairers and linemen will be greatly hampered in remedying the trouble. All the wires cut were private lines, so that the fact was not at once brought to the company's knowledge. The officials also state that the maps of their circuits disappeared early this morning. A number of linemen, while engaged in raising the wires to let a house be moved under them, were set upon by 20 or 30 persons, and their work impeded to such an extent that the police was called out and the mob dispersed. The Telephone Company offers reward for the detection of any person interfering with its property.

NEW YORK, July 23.

The force of operators which reported for duty at the Western Union office this morning numbered about 200, and it was said that none of them who were at work last week were missing from their posts. There was no business left over last night, and this morning all wires were clear, and there is no delay in handling all matter.

One of the officials said the outlook was becoming more encouraging every day. He said the force at our command is now more advantageously distributed than at any time since the beginning of the strike, and everything is working much more smoothly than could have been expected under the existing circumstances. Under this arrangement of our forces we hope to avoid in the future, all those delays which resulted from the demoralization attending the strike last week. The number of applications for situations are increasing each day, and before the end of the week we hope to have most of the desks filled. It certainly does not seem as though we were much hampered, when we are able to send and receive messages to and from all points in the south and west. The statement that our business in the gulf States is completely blocked, is without foundation.

This morning every wire is working, and we are getting along about as well as usual. The rumor that the boys and girls employed as check clerks would join the strike this morning, is not confirmed by the facts, and all were at work as usual.

Another Cyclone.

MINNEAPOLIS, July 22.

A terrific cyclone struck southern Minnesota yesterday, mainly along the line of the Chicago & Northwestern Railroad. The town of Elgin, in Olmstead county, was totally destroyed, every building being blown down or unroofed within one minute after the storm struck the town. Mrs. Thayer was killed and several were wounded. At Owatonna great damage was done, especially at the Fair grounds, where all the buildings were wrecked, and several persons were injured. One mile west of that place a passenger train was lifted from the track and turned clear over; 25 or 30 persons were injured. A. H. Williams of Rochester, Minnesota, was injured in the back and chest; W. Rogers, internally; D. Doolittle, skull crushed. These are the only ones feared to be fatally injured. At Kasson the cyclone struck one mile west of the town, blowing down the school houses and several other buildings in its track. At Mantorville three were killed and eight wounded, three fatally. At Waseesa there was great destruction, and one person was greatly injured.

The International Rifle Match.

LONDON, July 22.

The Daily Telegraph, referring to the International rifle match, praises the courage with which the Americans, who have cultivated military shooting for so comparatively a brief period, came to struggle with experienced shots. Possibly, says the Telegraph, that the Americans were defeated because their weapons were inferior at longer ranges. The English should not boast over their victory, as at what may be considered military ranges they were beaten on their own ground.

The Cuban patriots met in New York city yesterday. They claim that Spanish promises should be disregarded for they are never fulfilled.

The Boston Typographical Union have adopted a resolution of sympathy with the telegraphic strikers, and offer financial aid. The Central Trades and Labor Union took the same action. The strikers claim large concessions to their ranks, and seem confident.

The Paris *Journal des Debates* hopes that the appointment of M. Waddington as French ambassador to Great Britain, will settle all differences between the two countries relative to the foreign policy of the French nation. It says France loves peace at home and needs it abroad.

were killed. At Redfield, near Huron, it is reported that nine persons were killed and 50 wounded.

A Destructive Fire.

NEW YORK, July 22.

Five upper floors of the Munro building, 17 to 27 Vandewater street, were gutted by fire this afternoon. The floors below were flooded with water and every tenant suffered more or less. The total loss is about \$300,000. There were many narrow escapes but no lives were lost, and no one was seriously injured. The building is eight stories high, and the firemen worked at great disadvantage. Thirteen firemen were cut off by the fire and smoke on the eighth floor, and were rescued by means of a rope. Nine other firemen imprisoned on the same floor were also rescued in a similar way. Firemen on the roof were ordered off about a minute before the fall. The cause of the fire was spontaneous combustion. About 1,000 persons were employed in the building, but few, however, will be thrown out of employment.

The Western Union and the Strike.

OMAHA, July 22.

The Western Union office continues to handle all business offered, although it is considerably lighter than usual, owing to delay and interruptions at other points, and all vacancies in the office have been filled temporarily, and most of the volunteers will stay as long as necessary. 24 men out of 35 struck. The strikers seem confident, and are receiving encouragement from other points: they seem determined to stick it out.

Three special trains left this city today for Denver, having on board Grand Army delegates from all parts of the country. Commander-in-Chief Paul Vandervort and his staff were among the passengers.

The Situation in Memphis.

MEMPHIS, July 23.

There is an improved condition at the Western Union Telegraph office this morning. Manager Howard has ten men at work, having been reinforced by thorough, competent operators from Vicksburg. Gold and stock indicators, and Merchants' Exchange, and the two bucket shops are working this morning. All reports from Chicago say that the strikers continue to remain firm.

A Homicide in Georgia.

AUGUSTA, July 23.

A special to the Chronicle last night tells of the killing of Adrian Underwood by Dr. E. G. Scruggs, at Scruggsville, Glasscock county. A family feud was the cause. Scruggs represented the county in the State Legislature for a number of years.

Chief Justice Waite.

TOLEDO, July 22.

Chief Justice Waite arrived here last night from his western trip, and spent Sunday with his relatives and friends in this city. He is suffering from the injuries received in his recent accident, but it is not yet decided whether his rib is fractured or not. He goes hence to Connecticut.

A City Flooded.

FOUD LAC, July 22.

This afternoon several dams on Dane Creek gave way, flooding the eastern part of the city. Upwards of 200 houses were submerged, the rushing waters carrying away all loose material and pavements in Dearborn street, which was badly torn up. The damage is estimated at about \$25,000.

Solving the Problem.

ST. LOUIS, July 23.

The result of the recent leaving by the Arapahoe and Cheyennes of the western portion of their reservation for grazing purposes, is likely to revolutionize the entire Indian question. The rental is nearly \$83,000 per year.

TELEGRAPHIC BREVITIES.

—A serious outbreak of cholera is expected at Bombay.

—The telegraph strikers seem more than ever confident of ultimate success.

—The meeting of the Grand Army near Denver promises to be a grand success.

—Martin J. Crawford, Assistant Justice of the Supreme Court of Georgia, died yesterday.

Dr. Milligan of the Board of Health staff in New York, aged 25 years, committed suicide Saturday night.

—The cholera in Egypt continues to rage. All business and agriculture is suspended in and about Alexandria.

—At Foreskow, Egypt, in addition to the cholera, leprosy has appeared, and is spreading rapidly; neither physicians nor medicine at hand.

—The number of deaths by yellow fever in Havana for the week ending yesterday was 36. General E. O. C. Ord is dangerously ill at a private hospital.

—The Chinese have prohibited the export of bullocks for the French Army in Tonquin. The French Admiral and the British Consul both protest.

—The striking telegraphers held a meeting at Milwaukee last night, which was attended by several hundred people. Several speeches were made by newspaper men.

Senator Blair, Chairman of the sub-committee of the Senate committee on education and labor, has summoned the committee to meet at once in New York to consider the present strike.

—There were 600 deaths from cholera in a dozen cities and villages in Egypt on Saturday. A large quantity of lar is burned in Cairo every night. The inhabitants of the worst infected districts have been moved up the Nile and their houses burned.

—Hicks, Pasha, has again asked to be released, owing to the opposition of the native officials at Alexandria. Two majors and ten lieutenants of the Egyptian army have been sentenced to seven years penal servitude, for complicity in the massacres last year.

NOTICES.

Gallatin of Gallatin & Folsom went below yesterday.

Four car-loads of iron for the C. & C. came in yesterday morning.

Arnold's ink at Nasby's. Thermometer at 7, 9, 11, 1, 3-74, 80, 88, 94, 92.

In the morning sow thy seed, and in the evening fall not to pull the troublesome weeds.

A fine lot of bird cages just received and for sale cheap at Osburn & Shoemaker's.

For the finest toilet and medicinal preparations at bottom prices go to Queen's drug store.

A bunch of keys has been lost. A reward will be paid for their return. See 50-cent column.

For a real cooler this hot weather that fountain soda at Osburn & Shoemaker's beats them all.

Mt. St. Mary's Academy, conducted by the Sisters of St. Dominic, will reopen on September 1st. For further particulars see adv.

That Winslow's corn to be had at A. Lindley & Co.'s, put up in Portland, Maine, is as fresh as the day it came off the cob. No husks, tassels or silks in that corn.

You can buy more dry goods or the same money of Levy & Bro., on Virginia street, than from any other firm in Nevada. All their goods will bear the closest inspection.

The nicest and best kept resort in Reno is Chase & Thyes' place on Virginia street. Should you not feel like indulging, you can always find the latest papers and a good easy chair to sit in.

Stoves and tinware were never sold as cheap in Washoe county until the advent of Knowles & Bainbridge, on Commercial Row. Take a look at their stock, whether you wish to purchase or not.

Perkins' Farm.

Frank Perkins has made quite a stock farm of the rac-rack property. He has several thoroughbred mares, with foal, about 1,000 chickens, turkeys and ducks, and about 30 fine hogs, besides several horses in training, at the track, making it a lively place. Fred B. is in active preparation for the fall contests in trotting circles. California, out of Big Gun, and a descendant of the Monday strain of runners, is well and showing some remarkable bursts of speed. Lizzie K., a daughter of Nettie George, by Norfolk, is also in training. Anderson, a Sacramento trainer, has charge of Mr. Perkins' stable. The track is in good condition for training. By the way, is it not time for a move to be made towards getting the State Fair started?

Candelaria's Flag-Staff.

That liberty pole which Governor Adams did not send to Candelaria seems to be occupying the attention of the press pretty generally. The boast of the Eureka *Sentinel* that our distinguished Governor never forgets a promise, seems to have been somewhat untimely. Governor Adams doubtless realizes that four years is a long time for the people of a remote locality to remember so unimportant a thing as his promise to donate a flag-staff. Should he be a candidate for re-election, as he doubtless will be, he will probably depend upon one of John Snow's "fish barbecues," or some other cheap entertainment to make it all right with the boys.

No Air in His.

Yesterday a poor, but honest member of the brake-beam brigade, who had been successfully working the booze gag, walked into Chase & Thyes, Saturday, and addressing Dusy, called for "one of your stiffest sour toddies." "Oh, take a spin, take a spin," said Dusy, "skip round the block and get some air." "All right, sir, I'll take a walk round the block, but I'll be damped if I'll take any air," replied the thirsty tramp, as he swallowed his disappointment and walked out.

A Wealthy Actress.

Lotta, the actress, is said to be worth \$1,000,000, and made last year \$125,000. James H. Haverin, her legal adviser, informed a Philadelphia *Press* reporter that her wealth comprised \$300,000 in United States bonds, from \$200,000 to \$300,000 in New York real estate, a like sum in property in San Francisco, a big interest in the Globe Theater in Boston, and just before she sailed for Europe she loaned Henry E. Abbey \$100,000.

Something Wrong.

Mrs. Harriet Johnson was arrested at Grass Valley, Cal., last Friday, says the *Nevada Transcript*, for threatening to kill Superintendent J. F. Kidder of the Narrow Gauge Railroad, on sight. She openly avowed the threat in Court, and used other strong language. She would neither give bail nor permit anyone else to do so, and went to jail accompanied by her children, who have no other means of support. The case is described as a sad one.

A Horse Trade.

J. A. Blossom and the Evans brothers sold their horses to C. Powers of Wyoming last week. Six hundred and fifty head were started from Clover Valley last Thursday for Nebraska.

W. A. Walker is paying a business visit to his Reno patrons to-day.

Joe Whitehead of the Hard Scrabble ranch, Pyramid, was in town to-day.

Miss Lou Williams, a Virginia society belle, is in Reno visiting Mrs. George Simpson.

M. Ayres, the agricultural implement man, took a business trip to Elko county yesterday.

J. W. Parker and wife returned yesterday from their bridal trip to Lake Tahoe and vicinity.

A. B. Elliott, a Virginia City lawyer, was a passenger for California on this morning's train.

Billy Modroe, who has been mining for several months near White Plains, came to Reno to-day.

H. C. Burchard, the Mint Director, was a passenger for San Francisco on this morning's train.

W. B. Tobey, the Carson wood and lumber partner of H. G. Parker, went below this morning.

E. R. Moulton, Commander of St. Bernard's Commandery, Chicago, passed west yesterday morning.

R. R. Miller, Superintendent of the Kalamazoo mine in Mohawk Valley, left for home this morning.

Mrs. A. L. Marsden, mother of W. L. Marsden of the Insane Asylum, left here yesterday for Santa Monica, California.

D. E. Chamberlain of the Elgin, Ill., Commandery of Knights Templar, was a passenger for the west yesterday morning.

Mrs. A. W. Atchison, formerly of Carson and Escola, and recently from Portland, Oregon, went to Carson yesterday morning.

A. H. Barnes of the Golden Eagle Hotel, is enjoying a visit from a sister from Elgin, Illinois, whom he has not seen for 22 years.

James Davis and wife came down from the Mound House yesterday to visit their Reno friends. Jim likes his new situation very well.

H. C. Givens, from Camp Bidwell, is at the Golden Eagle Hotel, where he awaits the arrival of his daughter from Camp Apache, Arizona.

George Gilson, a Bodie merchant, was a passenger for San Francisco this morning. He reports business fair, and the people hopeful at Bodie.

Prof. Gibbs, who, for the past few days, has been examining tracks and fossils at the State Prison, returned to San Francisco yesterday.

T. Locan, President of the Eureka Consolidated, who has recently been examining some mining property in Eureka, was a passenger for the Bay yesterday.

J. K. Estep, an old-time Comstock carpenter and builder, was a passenger from below yesterday morning, on his way to the vicinity of the Mt. Corey mine, in Eureka county.

General R. M. Clark returned from a trip to the Owen Lake country this morning. He went with Superintendent Yerington of the C. & C. To-day the General is in Reno attending to Court business.

H. T. Graves, secretary of the general reception committee of the Knights Templar of San Francisco, and G. W. Williams, a prominent San Francisco member of the order, came up from the Bay yesterday morning to meet prominent Knights from Chicago.

BLOWING THEM UP.

A Mormon Bishop Making Room for More Wives.

Several days ago a Mormon Bishop named Kuidson of Ashley Fork, U. T., went to Park City and purchased some giant powder and took it home with him, some say for fishing, others that it was his purpose to get rid of at least one of his wives. However that may be, he succeeded in blowing up his first wife, who was in bed, and also his third wife, who was just coming into the room. Kuidson placed the powder under the bed and it supposed exploded it by a fuse. The women were badly injured, and the Bishop is now under arrest.

DAM BUILDING.

The river is the lowest now it was ever known, to be. So low, in fact, that ditch owners are obliged to build wing dams in order to get sufficient water for irrigating. The Water Company has been obliged to put in a dam at the head of the Highland ditch to keep their reservoir supplied. They are putting in a stone dam eight feet high and 12 to 15 feet wide on the bottom. It will be completed this week.

A Lively Runaway.

Dick Kelly's team, attached to his butcher wagon, started this morning from near the lumberyard in the eastern part of town, and ran up Plaza to Sierra street, then around the block, bringing up in the alley near A. J. Clark's store. The wagon is minus a hind wheel, every spoke of which is gone.

The Secret.

The Baltimore *News* says it is preposterous to speak of substantial success without intrinsic, unquestioned merit. St. Jacobs Oil, the great pain cure, is a most pronounced example. Its immense sale is due to its merit.

AN EXCITING SCENE.

An Ingenious Fire Escape Vendor Who Isn't Appreciated.

A shapely girl appeared at a fifth story window in Boston. Her long hair was loose and her gown was white, so that to the uncritical eye she looked like a person right from bed; but she wore shoes and stockings, as was subsequently observed, and there were numerous touches of a careful toilet. However, she fairly represented a girl hastily aroused from sleep by fire. Her movements were rapid, too, and her manner wild. She flung open the sash and climbed out on the sill. The square fronting the building was almost instantly crowded. With a shrill cry, she dropped herself. A thrill of horror ran through the multitude; but the girl was not dashed to pieces on the sidewalk. She descended with great and harmless celerity into the arms of a man, who began at once to extol the merits of his device, which consisted of a single wire, attached to a kind of harness, and pulled out from a box by the weight of the person hatched to it.

The girl was liked, but nobody cared anything about the apparatus, and its ingenious exhibitor did not make a single sale, the people disappearing as soon as she did.

Company, at Forest City, Cal., con-

tinued to take out big pay from the

South Fork ground. Last week's

run, says the *Sierra Tribune*, re-

sulted in a clean up Sunday of 1224

ounces. On Monday 10 carloads

of dirt yielded 16 ounces of coarse

gold. The South Fork mine is

proving to be one of the biggest

gold claims ever opened out in

the county.

Found His Man.

P. S. Corbett, United States Mar-

shal for Nevada, arrested J. P.

Kerr, the patent medicine man, in

San Francisco on Saturday. Kerr

is the man who was arrested in

Virginia City in 1881 for using can-

celled three cent stamps on his

letters, and was held to answer by

United States Commissioner Mit-

cher, but failed to appear when

called for on the 7th of May last.

His bail was fixed at \$5,000.
